

Low Voltage Reeling Cable suitable for reeling & festoon systems

Laag spanning (LS)
Basse tension (BT)

Beschrijving van de kabel / Description du câble

1 Kern / Ame

Electrolytic Copper Tinned, flexible cl EN 60228

2 Isolatie/Isolation

HEPR compound better than 3GI3

3 Tussenmantel / Manteau Intermediaire

Polychloroprene rubber based compound
Reinforced Anti-torsion Braid made of Synthetic Yarnsin an
vulcanized bond between two sheaths

4 Buitenmantel / Gaine Extérieure

Black Polychloroprene rubber compound

Markering / Marquage

Palazzo Panzerflex - L 0,6/1 KV (number of cores) x (cross section)

Normen / Normes

DIN VDE 0250, PART 814
